

FLCD – Lab 3 – Input file Program(Filename: “p1.Z”)

Lung Alin-Sebastian

Gr. 934/2

```
# Compute the max of 3 numbers
{
    # Read the 3 numbers
    print("num_1 = ");
    int num_1 = input(int);
    print("num_2 = ");
    int num_2 = input(int);
    print("num_3 = ");
    int num_3 = input(int);

    # Find the maximum and print it
    if ((num_1 > num_2) and (num_1 > num_3))
    {
        print(num_1);
    }
    elif ((num_2 > num_1) and (num_2 > num_3))
    {
        print(num_2);
    }
    else
    {
        print(num_3);
    }
}
```
